Testing Programme Summary

The period under review in this report is 1 October – 31 December 2016. During this time, the domestic and international Anti-Doping Testing Programme carried out 1703 tests.

For the purposes of this report, UK Anti-Doping defines a test as any attempt to test a single athlete in a single Sample Collection Session. If multiple samples (blood and/or urine) are collected from an athlete in a single Sample Collection Session, this is only counted as one successful test. If the athlete is not located or unavailable for testing, this is defined as one unsuccessful test attempt, regardless of the number of planned samples to be collected from that athlete.

The following table displays the outcome of these tests:

Testing Programme Summary

Unsuccessful Test Attempts – Quarter 3	133
Total number of Tests – Quarter 3	1703
