Testing Programme Summary

The period under review in this report is 1 January – 31 March 2017. During this time, the domestic and international Anti-Doping Testing Programme carried out 1781 tests.

For the purposes of this report, UK Anti-Doping defines a test as any attempt to test a single athlete in a single Sample Collection Session. If multiple samples (blood and/or urine) are collected from an athlete in a single Sample Collection Session, this is only counted as one successful test. If the athlete is not located or unavailable for testing, this is defined as one unsuccessful test attempt, regardless of the number of planned samples to be collected from that athlete.

The following table displays the outcome of these tests:

Testing Programme Summary

Successful Tests – Quarter 4	1647
Unsuccessful Test Attempts – Quarter 4	134
Total number of Tests – Quarter 4	1781
Additional Samples collected – Quarter 4 †	71
Full year summary	
Total number of Tests	8128
Total number of successful Tests	7303

† Additional samples collected when the Specific Gravity (SG) of the first sample is out of range, or for other reason

Of the 1781 Tests in Quarter 4, 268 (15.05%) were attempted under the jurisdiction of an International Federation.

Anti-Doping Rule Violations – Summary by Substance Category or Rule Violation

The following table details the categories of substance or rule violation for all closed cases publicly reported on the UK Anti-Doping website for the full year (i.e. 1 April 2016 – 31 March 2017). Possible anti-doping rule violations are grouped according to the categories outlined in the World Anti-Doping Code 2016 Prohibited List. For further detail on individual cases, please refer to the [UK Anti-Doping website](#).
